Lebanese Consulate International School Kano (LCISK)

Dear sir:

Re: Job Application as a Computer Science Specialist

I saw on your Instagram page "beirutmodernschool" on September 15 that your school is looking for someone with a background in Computer Science. I am writing to apply for this position, as I believe my qualifications and passion align well with the role.

I hold a Bachelor's degree in Computer Science from Beirut Arab University and currently work on various tech-based projects, including system development and educational software. I am confident that I can support your students in learning essential computer skills, programming, and technology literacy. I am highly detail-oriented and can manage multiple tasks efficiently.

I am also seeking an opportunity to gain more experience in the educational field, especially in a prestigious institution like yours. I truly believe this would be an excellent chance to contribute meaningfully while continuing to grow professionally.

Best regards,

Hadi muselmani
